06 Last year we saw leather look tiles, but Spain's **Saloni Ceramica** took it one step further with its launch of the Laca Range - a ceramic tile overlaid with real leather, with a mock-croc look. The 6 x 45cm piece is entitled Laca Chic. www.saloni.com 07 The Peace Hotel collection was **Falper's** new bathroom furniture launch, designed by Paolo Navone. Inspired by Shanghai in the 1950s, the Coco cabinet is made of ebony, with door fronts in idropan - a type of ecologically sound waterproof chipboard. This is then lacquered in a glossy white, light blue or jade green finish. www.falper.it 08 The award winning **Refin Ceramiche** stand was a riot of colour, provided by the new wall tile collection, entitled R-evolution, designed by Karim Rashid for Designstalestudio, Refin's creative laboratory. The lively and bright patterns were typically Rashid and inspired by digital communication. www.refin.it 09 Amarcard is a double washbasin from **Eurolegno**, shown in the bathroom section of the fair. 180 x 50 x 54cm, the luxurious looking unit is gloss painted with crystal washbasins and chrome handles. Eurolegno products are available in Harrods. www.eurolegno.it 10 **Novoceram** presented the Florilège collection that had everyone fooled into thinking it was wallpaper. Inspired by ancient Chinese paper walls, the 22.5 x 45cm wall tiles form an almost seamless panel that, until closer inspection, appears to be embroidered. www.novoceram.fr
